Detroit, Michigan 48235

Attention: Mr. R. A. Bruner

Outlines:

We have on contract with you at the present time our parts  
442411 and 442415 - Steel Elbows, to be used on our Cosworth  
V8 Engines.

Due to the fact that you have found it impossible to get the  
special rectangular bars to make these parts, we have received  
approval from our Central Engineering Department to use 11/16"  
square stock without further outside dimensional machining for  
part 442411 and 1-1/8" square stock without further outside  
dimensional machining for part 442415. Eventually new part  
numbers will be issued to cover the square stock as shown above.

Very truly yours,

L. E. Kern  
Buyer - Purchasing Dept.
